

# *We are looking for healthy adults to volunteer for a research study!*

Our team is looking for healthy volunteers for a study examining the role of certain antibodies. Participants will be asked to complete up to three in-person testing visits. The first study visit will require a muscle sample and all study visits include a blood draw.

*\*Study volunteers will be compensated for each completed testing visit.\**

## **You may qualify for this study if you:**

- Are 18 years of age or older
- Have no history of autoimmune disease
- Have no history of certain chronic diseases
- Have no history of chronic infectious diseases

*For more information, please contact the study team at
